Re: Erratum to letter from AACC International President Stuart Craig and AACC
International Task Force Document on Defining Whole Grains in Food Docket No.
2006D-0066; Federal Register, Vol. 71, No. 33, April 17, 2006.

Please note that it has been brought to our attention by the Canaryseed Development Commission of Saskatchewan in Saskatoon, Canada, that there is an error in our submission document regarding the species name of canary grass. It should be *P. canariensis* and not *P. arundinacea*, which is a noxious weed. The corrected taxonomy was confirmed by looking in the USDA Agricultural Research Service website (www.ars-grin.gov/cgi-bin/npgs/html/tax_search.pl).

We apologize for our error and wish to have this erratum placed in the public record to show the correction.

Sincerely,

A handwritten signature in black ink that reads "Barry McCleary".
