ePOSTER DESIGN

Preparation of a Poster
- The official language for the posters is English.
- Your poster should be self-explanatory so that you are free to supplement and discuss particular points raised by enquiry. It is your responsibility to include the poster title, author(s) name(s), and their affiliations. It may also include:
  - Diagrams and charts
  - Reaction schemes
  - Tables recordings, graphs, etc.
  - Photographs
  - Written text, such as abstract or summary, introduction, method, results, and conclusions
- Some effects that may be used in a poster include:
  - Colors (very effective in diagrams and charts)
  - Transparent overlays
  - Samples of materials, models, etc.
- Arrange the material in main sections, each of them without too many details but with a common thread.

Poster Layout
- Avoid overcrowding figures and cramming too many numbers into tables. Legends and titles should accompany all figures, tables, photographs, etc., for identification.
